

TEXTURED powdercoat

Palmer Hamilton continues to be the industry leader in creating innovative cafeteria products that are engineered to exceed the market's needs in materials, workmanship and design. In keeping with current design trends, we'd like to take a moment and introduce our new Textured Powercoat Finish.

Designed with a textured matte surface, our new formula gives a cleaner, richer look. The consistent texture smooths over bends, welds, and imperfections, forming a "skin" of protection on the surface. This texture resists fingerprints and smudges, and continues to look new with very little attention from staff.

Our frames are built in our own state-of-the-art facility where we can have strict control over quality. Our powdercoat process creates a harder finish that is longer lasting, stronger, and more environmentally friendly than conventional paint. By reducing chips, scratches and rusted frames, this finish helps ensure our tables continue to look great for many years to come.

Standard color options include black and chameleon; custom colors are available for an additional cost.

pump up the volume

Are you tired of the ordinary look and feel of your cafeteria? Do you wish there was a simple way to enhance and improve the environment?

Well — there is! Palmer Hamilton Accessories and Décor can pump up the volume of your cafeteria. Need the student participation volume increased? Use custom logo tables and wall graphics to entice students to stay for lunch. Colorfully designed tables and signs showcase school pride in a bold way and are the quickest to fill in any lunchroom.

Need more students funneling through your lunch lines? Try our serving line graphics and menu boards to create a food court atmosphere. These features help showcase what food is available, allowing you to serve more students quickly and efficiently.

We also offer waste receptacles, crowd control systems and custom artwork to help complete the transformation. These small details are often overlooked, but tend to have a significant impact.

Palmer Hamilton will help you create a vibrant, exciting dining atmosphere with just a few added details. Let us help you **pump up the volume** in your cafeteria!

- 3 why invest in food court
- 4 pump up the volume

"The first benefit we noticed right off the bat was the improved seating for students. The cafeteria is now the center for people to meet. Both the staff and students love the furnishings and the décor is top of the line. Our sales have started to increase and the staff is using the cafeteria for small group meetings. Thank You, Thank You, THANK YOU!"

Harry Fleener
Physical Plant Director
Chipola College, FL

Spotlight: Chipola College

When asked to describe his cafeteria prior to the Palmer Hamilton Food Court transformation, Harry Fleener stated simply, "Our cafeteria on our college campus looked like a high school or junior high cafeteria." In order to keep people on campus and using the food service program, Harry knew this needed to change.

The college was looking for an environment that allowed their clientele to enjoy a lounge atmosphere while utilizing their food service program. Moss-covered trees and bold azalea plants were the initial color inspirations behind the design of Chipola College. Through the use of chairs, ottomans, tables and sofas, our design team was able to use this inspiration to create a stylish and comfortable retreat as seen in the pictures above and to the right.

Palmer Hamilton offers a wide selection of furniture and custom décor to complement your current cafeteria. But a complete Palmer Hamilton Food Court offers a transformation that makes the biggest impact — visually and financially. What makes Palmer Hamilton the right choice? Our process.

We keep you involved in the transformation from start to finish. Palmer Hamilton's professional design group will walk you through the entire food court process. You will have full access to the best design team in the industry, with over 100 years of combined expertise in food service facilities design. If you have a new building or an older campus that needs a cutting-edge Food Court, we can provide the Design Services that will be your Blueprint for Success.

TORSION BARS & COMPRESSION SPRINGS

Provide two of the easiest lifting tables on the market.

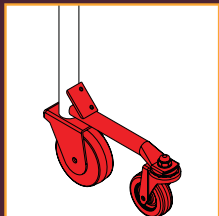

CENTER LATCHES

Two-stage latches have safety stop and in-use positions for safe operation.

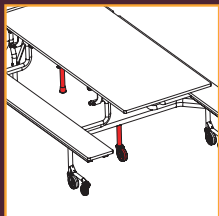

DOUBLEGUARD®

Prevents tip-over when tables are moved in the storage position. Meets and exceeds current UL anti-tipping safety standards.

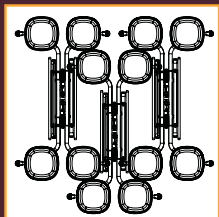

THIRD WHEEL & CENTER LEG

Provide superior weight distribution in open positions.

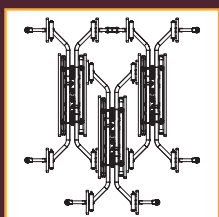

COMPACT STORAGE MOBILE 60T

Three tables require less than a 6' x 6' footprint. Additional tables add 18.5" to the nested depth.

COMPACT STORAGE MOBILE 63T

Three tables require less than a 5.7' x 5.5' footprint. Additional tables add 19" to the nested depth.

Being a leading manufacturer in cafeteria solutions for the past 65 years has taught Palmer Hamilton a thing or two about what makes a great cafeteria table. The Palmer Hamilton 60T Stool Table and 63T Bench Table are part of our long line of high-quality products.

WHAT MAKES THESE PALMER HAMILTON TABLES SO GREAT?

- ▶ **Safety** - By incorporating DoubleGuard®, both the 60T and 63T models meet and exceed current UL anti-tipping safety standards. The two-stage latches have stop and in-use positions for additional safety. The Center Legs and End Leg Assemblies provide superior weight distribution.
- ▶ **Easy to Use** - The Torsion Bars and Compression Springs work together to provide long-lasting lift assistance. These are two of the easiest lifting tables on the market. Additionally, the 60T Stool Table and 63T Bench Table clear standard 7' door frames, so they can be easily moved anywhere throughout your building.
- ▶ **Durability** - The textured Powdercoat finish creates a harder finish that is tougher and longer lasting than conventional paint. The use of Wilsonart® laminates provide advanced resistance to scratching, fading and staining. Our EdgeGuard™ treatment, standard on all Palmer Hamilton products, provides superior resistance to moisture, eliminates unsanitary food traps, and is extremely tamper resistant; the edges stay sealed, preventing edges from peeling and chipping.
- ▶ **Storage** - In one movement, the 60T stools and 63T benches swiftly fold in unison with the tabletop into the storage position. Both models fold flat to reduce the storage footprint and maximize your storage capacity. Users can easily fold tables out of the way for cleaning.
- ▶ **Options** - Palmer Hamilton offers you the choice of frame finishes, EdgeGuard™ colors, stool colors, and laminate colors and patterns. This enables you to coordinate with your facility's theme to achieve the desired effect.

Did You Know?

Palmer Hamilton has the largest and most diversified product offering in the industry.

Yes, we do! With **five** distinct product lines to choose from and over 50 tables and cafeteria products, we offer the widest range of choices specifically designed to fit your cafeteria needs, including Mobile Tables, Wall Pocket Systems, Outdoor Furniture, Accessories, and Food Court Furniture and Décor.

1 Palmer Hamilton offers more mobile cafeteria solutions. From bench to stool seating, and in all shapes and sizes, we provide more mobile choices than anyone else. The cutting-edge design and materials of these tables work together to create the most durable products to date. Each Palmer Hamilton table is designed for years of safe and easy operation, efficient use and compact storage.

"I wanted to take a moment and let you know how pleased we are with the furniture that you provided for the new High School and Jr. High cafeterias. Palmer Hamilton was very helpful in preparing the layouts and also with the different décor options we considered. The furniture is of high quality and we look forward to years of use."

John Constancio
Director of School Nutrition Services
Copperas Cove ISD

2 Palmer Hamilton offers several types of Wall Pocket Systems. Choose between three systems: Recessed (installed in the wall), Against Wall (mounted onto an existing wall), and Partially Recessed (partially installed into the wall). Wall Pocket Systems come in various depths, with a storage capacity of one to four sets of tables and benches.

4 Palmer Hamilton offers even the smallest details. Accessories are most often overlooked, but can help make a food service program a big success. Palmer Hamilton's Accessories include custom cabinetry and millwork, waste/recycling receptacles, condiment/cashier cabinets and crowd control.

3 Palmer Hamilton offers Outdoor Furniture. Palmer Hamilton Outdoor Furniture is a great choice — both outside and inside your facility. Available in stand-up tables and 2-, 4- and 6-seat cluster models, you have the option to expand your dining areas outdoors or complete the food court "look" indoors.

5 Palmer Hamilton offers Food Court Furniture and Décor. Transform your eating environment with a combination of tables and chairs, booths, décor, custom millwork, and lounge furniture that results in a unique and comfortable dining experience — a proven way to keep students on campus and involved in your food service program.

To top it all off, Palmer Hamilton offers more design choices than any other manufacturer in the industry! With Palmer Hamilton you have the opportunity to select from our numerous laminate collections, color choices for stools, frames, and EdgeGuard™, and even design a custom logo tabletop! A vast number of options are available to give your facility a one-of-a-kind design that your students will love to use. Bet you didn't know that!

Why Invest?

We understand the many challenges facing your food service program. From food, production and labor costs; to overcoming the "institutional" environment; to competition from outside vendors and restaurants — the challenges are numerous. That's why we offer complete turn-key project management for your Food Court transformation. Palmer Hamilton will walk you through every step of the project, including furniture selection, customized artwork, installation services, and more. We are confident that a Palmer Hamilton Food Court will attract students to your food service program, providing you with a Blueprint for Success!

Food Courts offer convenient, casual campus dining — giving students a variety of both traditional and non-traditional cafeteria elements. From booths to high-top chairs, to lounge furniture and décor, Food Courts provide a unique and comfortable place to dine and interact. They are a proven way to keep students on campus and involved in your food service program, which means increased revenue for your school.

On average your Food Court will pay off by recapturing your investment in about 18 months for a 2,000 student middle or high school, with profits continuing after the initial payback period. **Schools that have made this transformation have experienced profit increases up to 74%, with the majority of schools averaging over a 25% increase.** A Palmer Hamilton Food Court is the perfect on-campus dining solution for any food service program.

Palmer Hamilton's professional design group will walk you through the entire Food Court process. You will have full access to the best design team in the industry, with over 100 years of combined expertise in food service facilities design. If you have a new building or an older campus that needs a cutting-edge Food Court, we can provide the Design Services that will be your Blueprint for Success.
